Government Is Defeated Will Reduce Freight Rates

French Cabinet Resigns When Its Course Is Not Sustained.—Opposition Scores A Point.

Crisis Likely to Exert an Important Adverse Influence on the Algiers Conference—President Fallieres Takes Up the Work of Forming New Ministry—Sensation in Paris.

Paris, March 8.—Premier Rouvier and all members of the cabinet tendered their resignations to President Fallieres following the government's defeat in the chamber of deputies. The defeat came on a comparatively minor debate over church disorders. The government succeeded in holding only 234 votes, while the various elements in opposition, clericals, Socialists and Nationalists, united and polled 267 new votes, thus placing the ministry in the minority of 33. Premier Rouvier with all of his colleagues proceeded to the foreign office, where a joint letter of resignation was prepared. Later M. Rouvier presented this letter to President Fallieres, who accepted the resignations. The president announced his intention of at once consulting the presidents of the

The cabinet crisis comes at a most dramatic moment when the Franco-German contest has reached a decisive stage and may exert an important adverse influence on the Algiers conference and on European affairs. The debate in the chamber of deputies was upon the bloody riot during the taking of an inventory of a church in the village of Ineschepe, resulting in the death of a manifestant. Various orators severely criticized the government's course, asserting that it threatened to precipitate a religious warfare. Premier Rouvier replied: "The government has the duty to apply the law. It will apply it without weakness, but also with the prudence, tact and wisdom consistent with public tranquility. I ask the adoption of a resolution approving these declarations of the government." The resolution was thereupon put to a vote and defeated. The result was due to a combination of opposition influences. The vote is more expressive of personal antagonism to the ministry than of opposition to church law.

Appeal of Jews.
St. Petersburg, March 8.—A deputa-tion of Jews, headed by M. Slietberg, and representing provincial committees for the relief of sufferers by massacres, laid a report before Premier Witte, at the same time directing his attention to the continuation of the anti-Jewish agitation among the "black hundreds" and their threats against Jews if they acted with the progressive parties in the elections. The deputa-tion expressed fears of a renewal of massacres at Eastor, and insisted that only an immediate proclamation of the government's firm intention to protect life and property of Jews and to severely punish their assailants would stop the evil.

county commissioners to appoint inspectors of aparies and to provide a method of taxation upon bee colonies to meet the expense; S. B. Mr. Hynes, providing that stolen property recovered by the police shall be safely kept and registered by the mayor, and if not claimed the same are to be sold at public auction; S. B. JURY In the Case Of the City of Lima

GERTRUDE MABLE LARK, PROPRIETRESS OF THE GREAT SOUTHERN HOTEL

FAILED TO AGREE AND THIS MORNING AT 11:30 O'CLOCK WAS DISCHARGED.

One of the most interesting cases heard in police court ended at 11:30 o'clock this morning when the jury in the case of the City of Lima vs. Gertrude Mable Lark, reported that they could not agree and were discharged.

The story of the case dates back a week or so ago, when an officer

found a well known married man in a room at the hotel in company with a girl who formerly worked at the hotel. The guilty parties were not arrested at the time for some reason known to the police. The girl's testimony was introduced by the plaintiff, but in order to protect the family of the married man he was not called to testify. Several of the girls at the hotel testified that the landlady had requested that they receive gentlemen friends in their rooms. The landlady testified that many married people stopped at the hotel over night, but that in every case they were required to register. Said she did not request that they show their marriage certificate and had no way of knowing whether or not they registered fictitious names.

COLTIONS' DAUGHTER ON WITNESS STAND CONTRADICTS

Defense Attorneys in the Bulkhead Explosion Case Fail to Produce Evidence Against Detective.

Wapakoneta, March 8.—Mrs. Rosa Bodkins, daughter of Riley Colton, witness for the defense in the reservoir case, today said that detective, last summer was fishing and getting drunk.

She also said her father gave her \$45 prior to the time he says he received money from Sheeley for blowing up the bulkhead, but has contradicted statements made before the stand for some time.

Three other witnesses were introduced to show Ryan was an irresponsible character and drunkard in Colina. The defense endeavored to show bribery was attempted by another alleged detective, but could not establish his connection with the state agents.

George Link, father of Lawrence Link, jurymen, died early today, but court has not adjourned for fear of prejudice to the case. The trial will

be adjourned for Friday for the funeral.

TWO FATALITIES

Darken the Trial of the Alleged Reservoir Dynamiters.

Wapakoneta, Ohio, March 8.—George Link, a retired farmer, father of Lawrence Link, one of the jurors in the Sheeley dynamite trial, died last night and Court will adjourn Friday afternoon for the funeral. This is the second fatality connected with the case, the other being the sudden death at Celina of Elmer Long, one of the state's witnesses.

Isaac Brandon, a farmer, one of the 14 arrested for complicity in the crime, was on the stand. Mrs. Rose Bodkins denied that Colton was her father, but he made his home with her off and on and she looked after him.

Voluntary Action on Part of Managers of Western Railroads.—Amounts to Many Millions.

Agitation For Governmental Control of Rates Prompts the Step of the Magnates—Charges From the Sea-board to the Missouri River to be Revised—Debate on the Rate Bill.

Chicago, March 8.—Warned by the agitation of governmental control of rates, western railroads have decided to make voluntary reductions in transportation charges amounting in the aggregate to many millions dollars annually. The proposed reductions are to be made in all the rates of the six classes into which freight is divided and will be effective in the entire territory between the Atlantic seaboard and Missouri river. In general the reductions will amount to approximately 5 per cent.

The first step was taken in the movement at a meeting of the traffic executive officials of all western railroads. The report of the Chicago, Milwaukee and St. Louis road presented the proposition to the meeting for reductions, which was forcibly favored by the Chicago, Burlington & Quincy railroad.

Another conference has been called for next Tuesday at which will be present all of the important jobbers in the Missouri river territory. It is now planned, after a conference with the jobbers, to determine on a proper basis of rates from the seaboard to the Missouri river and then to make corresponding reductions in the rates from Chicago to the Missouri river and from the Mississippi to the Mis-

souri river. When this is accomplished, it is stated, reductions undoubtedly will follow from New York to Chicago.

Issues Involved in Rate Debate.

Washington, March 8.—The issues involved in the controversy over the pending railroad rate bill were squarely presented to the senate in the speech of Senator Clapp, one of the Republicans supporting the measure without amendment, and by resultant remarks from Senators Bailey and Tillman, who are supposed to represent the views of the Democrats. The discussion of those speeches later by senators on both sides of the chamber developed a new phase of the situation. Senators Aldrich, Foraker, Crane, and other Republicans who are seeking to amend this bill so as to provide for judicial review of orders of the interstate commerce commission, took the position that the discussion of the subject demonstrated that the friends of the measure are divided, and that the bill present form. They said they were encouraged in the position they had taken from the first and declared that when the bill is brought to a vote they will have supporters enough to adopt a court review feature.

PROSECUTION

In the Haugh Murder Trial Rested After Introducing Expert Witnesses.

Dayton, Ohio, March 8.—H. H. Hessler, head of the Hessler Drug Company, of Cleveland, testified in the Haugh murder trial that on November 1 he received an order from Dr. Haugh, from 415 East Third street, this city, for 100 of one-fifth-grain tablets of hyoscyne hydrobromide, with instructions to hasten its delivery. He said that the drug is one of the most deadly known, and that it was administered only in extreme cases.

His clerk, A. A. Reidhard, testified to having made up the order and mailing it to Dr. Haugh at the address given.

The testimony of Drs. Frank Flie and C. W. King corroborated that given by Mr. Hessler, stating that the drug is without curative value, and used only in cases of insanity or extreme nervousness.

The prosecution rested its case yesterday afternoon after the introduction of expert testimony as to the effect of hyoscyne.

Dr. J. M. Huston and Dr. A. F. Shepherd, Superintendent of the State Hospital for the Insane, were then placed on the stand for the defense. The testimony of both was largely corroborative of that given by previous witnesses. Dr. Shepherd stated that he had been associated with insane asylums for 12 years and said that hyoscyne was used in cases of muscular and nervous excitement as a last resort.

The last witness for the state was Della Batters, one of the string of girls that Haugh acquired in his career. She said Haugh told her that he did not care so much for his mother as he did for his father, for the reason that his mother had sworn against him in lunacy proceedings.

Was Presented to the House By the Finance Committee To-day

The Bill Included an Appropriation of 62,500,000 For the Lima State Hospital.

Columbus, O., March 8.—The first general appropriation bill was presented to the House of Representatives today by its Finance Committee through Chairman Baldwin. It shows that nearly \$1,000,000 was saved over the first bill of 1904, the actual figures being \$987,882.94. Out of this surplus, however, the committee has taken \$444,000 for different new enterprises and for other purposes. For the rehabilitation of the canals the sum of \$311,000 is set aside, with the promise that the next bill for 1907 will contain a larger sum. In the same action is taken toward the State Tuberculosis Sanatorium at Mt. Vernon, recently located, \$75,000 being set apart for the purchase of land and for new buildings. Both of these new institutions will be substantially remembered in the second bill. In addition the salaries of the members for next year, \$94,800, are included in the bill of today. All of these are paid out of the surplus there will still be left a balance of \$343,882.94.

The bill of 1907, which will follow within a short time, will be considerably less than that of today, so that the combined saving for the session

will be somewhere between 600,000 and a round million.

The death knell of the Miami and Erie Transportation Company, better known as the "Electric Mule," is foreshadowed by the appropriation in the bill of \$100,000 for the reconstruction and repair of the southern division of the canal between Dayton and Cincinnati. Through the operation of this reconstruction it will be necessary to clear off all the present obstructions upon the canal banks, and this means the removal of the tracks, wires and other paraphernalia of the "mule company." It also means that there now exists hope that none of the right of way of the canal will hereafter be given over to any electric or steam railway. The same amount—\$100,000—is given to the northern end of the Ohio and Erie Canal between Dresden and Cleveland, which means that the state will cooperate with the Federal Government in making a waterway from Cleveland to Zanesville via the Muskingum river, enabling shippers to avail themselves of an all-water route from Cleveland to Marietta. The General Government is now engaged in opening up the canal from Zanesville to Dresden. The Muskingum river is already canalized and the clearing away of the obstruction at the Dresden Bulkhead will open up the line from end to end.

It is charged that these companies make and sell at least 80 per cent. of all the elevators used in that territory and that they have entered into a combination among themselves to control and enhance the prices at which elevators are sold."

Algiers, Spain, March 8.—The French police project was distributed among the delegates to the conference on Moroccan reforms. The proposition consists of five paragraphs, the substance of which is as follows: "The Moroccan police to be constituted for three years composed of Moorish Muslims, commanded by 16 French and Spanish officers and 32 non-commissioned officers. The force to consist of 2,000 to 2,500 men, distributed among the eight ports in bodies of from 200 to 500, the state bank advancing funds for the admission and for the payment of the force." No mention is made of international supervision and the project is practically the same as was outlined in M. Revault's declaration on Monday.

President Removes District Attorney For Oklahoma.

Washington, March 8.—President Roosevelt removed from office Horace Speed, United States district attorney for Oklahoma, as a result of charges pending against him. These charges were to the effect that he entered into a contract with a certain county commissioner to render legal services and that he had paid improperly to that commissioner certain sums of money in connection with that employment. The charges were investigated by the department of justice, and the president's action follows the report on that investigation.

She had a talk there with Assistant District Attorney Ely. Although no official statement was made public, it was reported that the young woman gave Mr. Ely the names of four policemen, to whom she paid \$2 a week for protection while leading the life of a woman of the streets. She also gave the names of about 50 other policemen, the report stated, who were receiving like amounts from other women in the districts where they lived.

Quail Is Confident of Landing

TAKES MANNINGTON'S ENTRANCE INTO COLLECTORSHIP FIGHT SERIOUSLY, BUT SEES NO HOPE FOR HIM.

(Toledo News.) George H. Quail, of Lima, the Republican leader in the Fourth congressional district, to whom Senator Foraker virtually promised the collectorship of the port of Toledo before his alleged amicable division of patronage with Senator Dick, takes seriously Howard Mannington's entrance into the fight.

"Mannington will never be content to take a paymaster'ship in the regular army," was Quail's comment today.

Quail spoke in highest praise of Mannington, and said he was a man worthy of recognition. It is believed at Lima that Senators Dick and Foraker will agree some time before the end of the session, and that Quail will be named to succeed George P. Waldorf.

CLUB

Over Its Employees Held By the Pennsylvania

To Make Them Sign Petition Against

ON OHIO BILL FOR THEIR BETTER PROTECTION—THREATEN THE ABOLISHMENT OF THE PENSION AND RELIEF SYSTEMS.

Pittsburg, Penn., March 8.—In an effort to get names to a gigantic petition against a bill in the Ohio legislature, aimed against rules of the voluntary relief department of the Pennsylvania lines, representatives of the Pennsylvania Company are circulating among employees and demanding that they sign. The ultimatum given is that if they do not affix their names, both pension and relief systems will be abolished. The bill which is making the trouble has already passed the Senate and will come up before the House in a few days. It provides that railroad employees shall not be allowed to surrender their right to damage for injury received on the road which employs them.

When an employee becomes a member of the Relief, he is required to sign an agreement by which he waives all right to damages for himself or family in case of accident or death on the road. It is not compulsory that they join the organization, but when new employees are hired they are given a quiet tip that they had better join the Relief, as it is generally expedient to do so.

The company's agents have already secured the names of 5,000 employees to the petition against the Ohio bill.

FAST**Train on the Erie Railroad Piled in a Wreck****Engineer Was Fatally Hurt But the**

PASSENGERS ESCAPE MIRACULOUSLY.

The Unlucky Train Was No. 7, Due Here at 12:35 a. m.

Binghamton, N. Y., March 5.—Westbound Erie Railroad train No. 7, traveling at the rate of 20 miles an hour, composed of eight coaches and carrying a train load of emigrants bound for the west, was derailed at the Erie tower above the Court street bridge, near Griswold street, and the engine, mail, baggage and express cars plunged over the embankment to the street.

Samuel Mason, the engineer, was pinned beneath the wreck of the engine and is at the hospital so badly injured that his death is expected. Leslie Jackson, the fireman, was also injured, but hope is expressed for his recovery.

None of the passengers were hurt. Five minutes after the wreck the entire fire department was on the scene and was followed in a few minutes by ambulances. The wreck caught fire, but the flames were quickly extinguished.

The train in question is due in this city at 12:35 a. m. and is known as the Chicago express.

Coal Station Burns.
Chicago March 5.—Fire destroyed the coal station of the Chicago & Alton railroad and threatened two round houses and hundreds of loaded coal cars. As a result of the fire it will be necessary to coal all the railroad's engines by hand until temporary arrangements can be made. The damage to the station was \$50,000.

Most disfiguring skin eruptions, acrofolia, pimples, rashes, etc., are due to impure blood. Burdock Blood Bitters is a cleansing blood tonic. Makes you clear-eyed, clear-brained, clear-skinned.

Strange Tropical Disease.
Berlin, March 5.—Prof. Robert Koch lectured on the "sleeping sickness," which he investigated for several months in equatorial Africa, during the year 1905. Emperor William and distinguished company were present. The malarial disease, he said, had been known on the west coast of Africa since the beginning of the last century and it had spread to the shore of the Victoria Nyanza, and threatened German Africa. Probably 200,000 persons had died from the disease. The infection was spread from human to human by the sting of a fly, the glossina palpalis, somewhat larger than an ordinary fly. The sufferer was attacked with fever, became incoherent, the glands were swollen, the patient became emaciated, and eventually was seized with the sleep mania.

Free Suffrage in Austria.
Vienna, March 5.—The government's franchise bill which provides for general, equal and direct suffrage for Austria and which was introduced February 23 by Premier Gautsch von Frank thorn, was taken up on first reading in the lower house of parliament. Count Arthur Bylandt-Rheidt, minister of the interior, said that although the principle of a universal and equal suffrage with no opposition from the majority of the parties, the project necessitated a rearrangement of constituencies and redistribution of seats. The constituencies, he said, would be rearranged as far as possible on the principle of boundaries and according to nationalities, and in order to protect nationalities, no province would be allotted fewer seats than usual.

NO CONCESSIONS

By the Illinois Operators to the United Mine Workers.

Chicago, March 5.—No concessions will be made by the Illinois Coal Operators' association to the United Mine Workers' union, which is seeking an increase in pay for its members. This was decided upon at an executive meeting of the operators who adopted resolutions declaring their willingness to face the threatened strike of April 1 rather than grant the demands of the miners. The meeting was held for the purpose of considering a call made for a joint meeting of the operators and miners of the states of Illinois, Indiana and Western Pennsylvania at Indianapolis, Ind., March 15, in an effort to make a second attempt to formulate a scale of wages and conditions of labor for the year ending March 31, 1907.

"THEY LIE"**Declared Mrs. Eames Who Took the Stand****To Answer Stories Of Revels in Her Home**

Told By the Witnesses For Her Husband Who

IS TRYING TO SECURE A DIVORCE—FAIR DEFENDANT TELLS WHY

Their Marriage Was Kept a Secret Dragging the Name of Mrs. George Hargraves Into the Case and Giving Other Spicy Testimony.

Chicago, March 5.—Her face flushed and plainly showing her nervousness, Mrs. Jennetta Eames took the stand in Judge Gray's Court to answer the stories of revels in her home told by witnesses for her husband, John H. Eames.

When questioned by which witnesses had testified she had played a prominent part, pink spots appeared in her cheeks and her eyes flashed fire. "They lie," she declared vehemently. "There is not one word of truth in their accounts of drinking parties in which I am depicted as taking part in a limousine."

The name of Mrs. George Hargraves, wife of the Secretary of the American Car and Foundry Company was brought in when Mrs. Eames told how the announcement of her wedding to Eames was suppressed for several months.

Accuses Her Husband.
"The reason for this," explained Mrs. Eames, "was that my husband requested it. He told me after his marriage that he had a confession to make. He said that for years he and I have been friendly with Mrs. George Hargraves, of Riverside, and that we would have to keep our marriage secret until he could break it easily to her."

Mrs. Eames then told her story of her "interrupted honeymoon." After two days at the Great Northern Hotel she and Eames separated, she said. Eames going to the Auditorium Annex and she to the Ontario Hotel. Several days later, Mrs. Eames said, she was told to meet Eames at the Great Northern Hotel again.

"I went to the hotel and waited for Mr. Eames," she said. "When he did not come I registered under the name of Mrs. Chittenden. Next day he appeared so intoxicated he could hardly stand. He told me he had been having a 'bully' time at the Everleigh Club with a 'fairy' named Marie, and had forgotten me."

The witness told of a "visiting trip" on which her husband had taken her. According to Mrs. Eames, he was taken to a "luxurious furnished house" on Dearborn street.

"There were a number of women in low-necked gowns. One named Jane, sat on his lap. I got angry and left the place and went home."

After declaring that she had slept in the same room with Millionaire Scatcherd, of Buffalo, and that she had pointed her face and received E. A. Condon in her bedroom, Mrs. Eames proceeded to detail the alleged conduct of Eames with her maids. Once, she said, she found him dining with Betty Lewis.

Hunting His Paper.
"Finding my husband in Catherine Bremer's room was a common occurrence," she declared. "Mr. Eames used to rise at 5 o'clock in the morning and would stay in the kitchen for a couple of hours. When I questioned him he said he was looking for the morning paper."

Still Fond of Him.
At one point in her testimony of the afternoon, after she had sworn that her husband drank entirely too much for his and her good, and that he had twisted the treasures of his affections and his bank account upon other women, Mrs. Eames bent her handsome eyes upon him and said sweetly:

"I was fond of him now then, and I am very fond of him now."

His wife admitted cheerfully that the charge that she had at various times was founded upon fact.

"But," she said, "before I knew Mr. Eames I drank very little. Even after I knew him I was never intoxicated. I drank, of course, but modestly. I drank and always in his company. I never drank so much that I danced a jig in a limousine, as his witnesses have declared."

According to Mrs. Eames a Mabel Drake, of Highland Park, was wont to receive \$150 each month from Eames.

THE JOY OF A GOOD CIGAR.

McVillie, the Druggist, Tells How Smokers Can Be Sure to Get Their Money's Worth.

"How can one be sure of getting his money's worth in buying a cigar?" asked a News reporter of McVillie.

"I'll tell you how to be sure. Just buy a Wadsworth Bros' Cigar. This cigar is always the same—a good, honest, satisfying smoke. It is made with a long Havana filler, so that it always burns with a firm, solid ash, the best sign of a good cigar."

The Chico Burns with a fragrance like that of the Carolina perfect, a 25c. cigar, but it costs only 10c. My best customers are smoking the Chico, and when they stop in front of the cigar case, they say, 'give us some more of those good cigars.' 'I pass out the Wadsworth Bros' Cigar, and they go away happy.'"

Try a Chico yourself, and see how good it is.

TALENT OF MISS BESSIE TUDOR, Niece of Mr. Robert Peate, of This City, is Recognized.

The following is taken from the Van Wert Bulletin:

The meeting of the Choral society held at the First M. E. church yesterday afternoon, for the purpose of discussing plans to combine with the singers of Venedola and Comer in a grand chorus to compete in the Bistadford to be held in Canton, July 4, was not sufficiently attended to form a quorum and it is quite possible another meeting will be held.

The New York Tribune, in the appended paragraph, pays a very merited compliment to Miss Bessie Tudor of this town: Miss Bessie Tudor, the soprano, has been engaged as a soloist for the coming year by the Lafayette Presbyterian church of Brooklyn. This church has, in addition, a fine choir of well known singers, a solo quartet representing some of the best material in Greater New York. Miss Tudor's beautiful voice, splendid musicianship, and thorough knowledge of Oratorio singing places her in the first rank of church singers in America.

Miss Tudor is a niece of Mr. Robert Peate, of this city.

Tonsilline Prevents Quinsy

The Germs which cause Quinsy reach the deeper tissues by absorption through the blood, causing the horribly painful inflammation which results in suppuration. Quinsy is simply a development of Sore Throat to which some people are particularly subject. With them, a tedious or neglected Sore Throat terminates in Quinsy. With Quinsy, a quickly cured Sore Throat means Quinsy avoided and nothing more. Sore Throat is quickly and surely as TONSILLINE.

Many men letters as below prove TONSILLINE's value in preventing Quinsy. (Continued from page 1) I have been subject to Quinsy for the last fifteen years and have simply had to suffer from ten days to two weeks with it at every attack, never having been able to find a preventive, until I commenced using TONSILLINE.

Up until a year ago I had ten attacks of Quinsy, but have been able to avoid it twice since that time by the use of a 25 cent bottle of your remedy. Hoping that others similarly troubled will profit by my experience, and thanking you for what your TONSILLINE has done for me, I remain, Yours very truly, H. T. KEENAN, Chief Clerk, Adams Express Co., 120 E. W. Ave., Cleveland, Ohio.

Sufferers from Quinsy should always have TONSILLINE ready for instant use on first sign of Sore Throat. 25c and 50c—All druggists. The Tonsilline Co., Canton, Ohio.

Chicago News: "No, the brewers do not own this town." Happy Chicago!

According to Mark Twain "a gentleman is not a lady." Neither is he a gent.

When it comes to naming him for second place on a ticket, Tom Johnson has no political aspirations.

Inasmuch as there is a scarcity of worms at this season of the year, throw the early robin a few crumbs.

"Most people are born too modest," says Mark Twain. But it wouldn't do for every man to be a born politician.

King Edward is taking a vacation as the Duke of Lancaster. As king his salary goes right on without interruption.

It seems that John D. Rockefeller could save himself a lot of bother if he would buy Missouri and run it to suit himself.

Scientists claim that insanity is caused by microbes. Science has now discovered a microbe for about everything but honesty.

Dressmakers in convention have been showing how to make a woman with a poor form look like a Venus. But is it honest?

As a matter of curiosity we would like to know what the spelling reformers propose doing with the word "incomprehensibility?"

France has allowed a report to leak out to the effect that her army is ready for war, and that Germany will hear about it.

A Pennsylvania man has been fined \$10 for striking his wife with an axe. He was lucky to escape being hauled away in a wheelbarrow.

Mrs. Yerkes-Mizner signs herself "Mrs. C. T. Yerkes." Her husband doesn't feel badly enough about it to refuse any checks that she signs that way.

If John D. Rockefeller loans Russia \$200,000,000, it will add new zest to his life, as he will probably want to live long enough to foreclose the mortgage.

Minnesota Prohibitionists announce that they will go into the next campaign full of hope. Every time a Prohibitionist loses hope he is ready to join the Democratic party.

COST OF SPRINGFIELD RIOT.

The militia has left Springfield and the riots so far as open outbreaks are concerned, is a closed incident. The Champion city is now figuring the cost. The one item of maintaining the troops in the town for six days is estimated at \$10,000. This bill will have to be paid by the state. The property loss, which aggregates \$15,000, will be borne by Clarke county.

But this monetary loss is small compared with the indirect damage done Springfield for permitting con-

ditions which made the recent riot possible. Only two years ago that city was in control of a mob which destroyed life and property, and the state was called upon to quell the rioters. Had the local officers, following that disturbance, been more active in prosecuting and punishing the instigators, the violence of last week would probably not have occurred.

AN INTERVIEW WITH YOUR BODY

The Language Nature Uses in Telling Her Troubles—in Warning Mankind of Her Need for Aid.

It will surprise many people to know that regularly each day Nature tries to talk to them about the conditions and needs of their bodies. Very few people know how to converse with Nature. She speaks only one language—that of pain. Each little pain and ache she gives us has a meaning. Quite often it is a warning, often an appeal for assistance. Thus a twinge of rheumatism is a warning that through improper care of the body, uric acid is accumulating in the system.

Nine-tenths of all diseases are caused by an overload of uric acid in the blood, but when Nature speaks out plainly by means of pain, many people pay no attention, thinking the pain will not last long. Probably it does not, and so the disease gradually gets a firm hold before its presence is known.

To understand what pain means—to know how to aid Nature—that is the story LIFE PLANT is continually telling.

LIFE PLANT shows in a simple way just how Rheumatism, Catarrh, Stomach and Kidney Trouble, and many other diseases are caused—tells you how LIFE PLANT drives the cause—uric acid—out of your system.

LIFE PLANT is a simple, scientific vegetable preparation for people of good judgment. If you want to learn all about it, ask your druggist, he sells LIFE PLANT; or write to the LIFE PLANT COMPANY, Canton, Ohio, and get a valuable booklet, on Good Health and expert medical advice free. The wrestling bout at the Auditorium this evening between Charles Kaiser, of Rochester, New York, and Al Ackerman, of this city, will be one of the best ever witnessed in this city. Kaiser arrived in the city last night from Rochester and is stopping at the Manhattan hotel. He weighs 150 pounds, 6 pounds heavier than Ackerman, and is 22 years of age. To a DAILY NEWS reporter this afternoon he said if he didn't win the match tonight it would be the best ever seen in this city. It will be best 2 in 3, straight catch-as-catch-can.

Ackerman wrestled at Ada last night with Farmer Davis, winning with ease, securing two falls, while his opponent did not get a fall.

THE PRELIMINARY.

The preliminary match which will start at 8:15 o'clock, will be one of great interest, as it will be between Farmer Davis, with whom Ackerman wrestled last night at Ada, and Ackerman's wrestling partner, Mr. Straley.

AMUSEMENTS

The sale of tickets for the firemen's benefit has exceeded all expectations and arrangements have been made to play a Sunday matinee at the Faurot. This will be made a children's matinee or in other words any child will be admitted for 15 cents to any seat in the house.

People need have no hesitancy in sending the children because it is Sunday for the Shields company gives an entertainment entirely from the ordinary play or drama. Manager Shields wonderful reproduction of the original Ober-Ammergau Passion Play will be reproduced as an afternoon attraction. It will be given in moving pictures. It was exhibited in the Temple theatre, Ft. Wayne, last winter on a Sunday and made such a tremendous hit that the Shields company remained there for nine Sundays and played to packed business.

Miss Sherman the charming little star whose pictures are gracing so many windows in town will appear in her usual numbers at the matinee including the illustrated songs and other numbers. Manager Shields will give his great illustrated travelogue "Where Rolls the Oregon."

The White City Fire Fighters and the sensational local fire will all be given. Matinee stars at 2:30 and every child should take advantage of the reduced rates that were arranged by Chief Coates and Manager Shields especially for the youngsters. There will be no reduction for children at either of the night performances. Manager Shields writes Chief Coates that the local picture is excellent and will make the biggest kind of a sensation.

Performances will be given Sunday and Monday night. Marion Vermillion, the Eugene Cowles of the fire department, will sing at every performance. When Manager Shields was here he heard the genial captain warble and the promoter insisted that he would sing a couple of selections and if Miss Sherman gets here in time the audience will have the pleasure of hearing the Shields and the Lima stars sing a duet at the Sunday matinee.

Live Intelligence of Buckeye State

Two Suspensions.

Springfield, O., March 8.—The suspension of Michael M. Duffy, superintendent of the city's fire alarm system, and of Police Sergeant Joseph Creager, is one of the sequels of the recent riots. Friday, when the Palmer house bar was raided by a squad of police commanded by Sergeant Creager, Duffy was caught at the bar, but was allowed by the policemen to go after Sergeant Creager had accepted \$50 cash bail from him in violation of the order of Police Chief O'Brien requiring the giving of bond. Charles Snyder, one of the wealthiest men in the county, who was caught in the raid, filed his charges because the police would not take cash bail from him. He had to go to jail until bond was fixed by court. Mayor Todd will hold a hearing Friday in both cases.

Opposed to Arbitration.

Alliance, O., March 8.—The coal miners' convention of the fourth district elected the following officers: President, Percy Tetter, Washington; secretary, John Archibald, East Palestine; executive board, Robert Wheatley, Salineville; John Poplin, Bergholz; Fred Dicke, East Fairfield. A resolution was unanimously adopted expressing disapproval of the bill recently introduced in the state senate providing for the settlement of miners' grievances by arbitration.

Charged With Murder.

Hamilton, O., March 8.—Charles Gay, a private detective of Cincinnati, who killed William J. O'Connell, a Middletown saloonkeeper, in a gambling raid, waived examination and was held to the grand jury without bail for first degree murder. Lawyer Thomas Darby, who defended Alfred A. Knapp, appeared for Gay.

Ohio's Share of Riot Expenses.

Columbus, O., March 8.—Adjutant General Hughes completed a statement of the cost of sending the troops to Springfield last week. The total, \$7,664, includes pay for the men, their transportation and other expenses. Four companies from here, two from Springfield, one from Xenia and one from Urbana were called out.

Fifth District Miners.

Canal Dover, O., March 8.—The United Mine Workers of the fifth district met today in New Philadelphia for a three days' convention. The strike question will be brought up for consideration. There will be a bitter contest for president to succeed President W. H. Werber, the incumbent, who is not a candidate.

Alleged Illegal Expenditures.

Marion, O., March 8.—The statement of the commission appointed by the common pleas court to examine the report of the Marion county commissioners has been filed and it alleges that thousands of dollars have been illegally spent by the commissioners. The report of the examiners caused a decided sensation.

Burglars Blew Safe.

Steubenville, O., March 8.—The safe of the express company at the Wheeling and Lake Erie railroad office at Dillonville was blown open with nitroglycerine and several valuable packages secured. The burglars escaped in a stolen rig after exchanging shots with the town marshal.

Dead on the Tracks.

Columbus, O., March 8.—Henry Smith, son-in-law of P. B. Edwards was found dead on the railway tracks near his home on the West Side, the body being terribly mutilated. The family moved here from Virginia about two weeks ago and the youth had been working at a tin plant.

Looks Like Keifer.

Springfield, O., March 8.—A successor to General J. Warren Keifer will be nominated at the Seventh district Republican congressional convention, which will be held here March 26 in the City hall. It is understood that Keifer will be renominated.

Shake-Up Likely.

Cincinnati, O., March 8.—Criticism has been made of the management of the Cincinnati postoffice, and as a result a shake-up among the employees is imminent. It is also stated that Postmaster Montfort will not be reappointed for another term.

Child Falls Into Open Grate.

Cadiz, O., March 8.—Marie, the 3-year-old daughter of Mr. and Mrs. W. Atkins of Hopdale, this county, climbed up to get a story book from the mantel and fell into the open grate and was so horribly burned she died soon after.

Smashed Window; Seized Watches.

Youngstown, O., March 8.—A thief in possession of 20 gold watches as the result of the breaking of a window in Riggelman's store. The man used a stone on the plate glass window and grabbed the tray containing the watches.

Braken Under the Wheels.

Marion, O., March 8.—Robert Patterson, married, and residing in Gallatin, O., was ground to pieces by a Big Four train in the local yards. He was employed as bookman and was making up his train when the accident occurred.

AMUSEMENTS

The critics have agreed and the public has decided, that Theodore Kremer's Twentieth Century melodrama, "The Fatal Wedding," which comes to the Fauror Opera House next Saturday afternoon and night, is the best melodrama ever written. The story has to do with a Mr. and Mrs. Wilson, who are estranged by the divorce courts through the evil influence of a wicked woman and a man still worse. The wife, with her two children, seek refuge in the lower East side of Greater New York.

The main support of the family and the centre of attraction at all times. She finally is instrumental in reuniting her unhappy parents, in the nick of time, at the foot of the church altar. The scene in Grace Church, illuminated at night for the wedding ceremony, is extremely realistic. Another wonderful scene is the snow storm on the heights of the Jersey Palisades, a wonderfully executed stage effect.

There has never been a play that has achieved the success "The Fatal Wedding" did in New York. Nearly all the original members of the company remain in their respective roles, including little Cora Quinten, who is practically the star of the organization, and who draws the children on matinee days quite as much as grown people. A surprised choir of fifty boys contribute to the realism of the Grace Church scene, and is particularly effective.

Tight Lid For Ottawa

SALOONS MUST OBEY THE LAWS
AND SLOT MACHINES MUST GO.

Ottawa, Ohio, March 8.—The village council decided last evening to apply a more tightly fitting lid to the city than it has been wearing. The saloons, which have been permitted to have their side doors open until midnight, must now be entirely closed at 10 p. m., and have the screens and blinds raised so as to expose the interiors. The Sunday closing law will be strictly enforced. No slot machines may be used on Sunday, and minors are not to be allowed to use them at any time.

Ottawa, with a population of 2,500, has fourteen saloons. As Leipsie and Columbus Grove, on either side, are dry towns, Ottawa is something of a Mecca for the thirsty. There has been a good deal of complaint from the merchants that farmers' wives and children are frequently compelled to wait in the stores until midnight, as long as the saloons are allowed open till then. Penny slot machines are the only variety allowed in town, and are found in all the drug stores and groceries besides the saloons. While they probably do no harm to adults, they some-

times play havoc with small sums given to children for purchases for the family. Hence the city fathers have decided to restrict their use.

SQUARE

Is to Be a Busy Place

Lima Trust Company
Buys the Ashton
Property

PAYING \$60,000 FOR SAME—
THOUGHT THE TRUST COMPANY BOUGHT PROPERTY FOR THEIR OWN USE.

Things are looking up down on the Public Square, but at the expense of west High street. There will be many improvements in this particular business section of Lima and they will be of a substantial nature, too. The early spring will witness the beginning of many changes.

Yesterday afternoon a deal was closed whereby the Lima Trust Company, at the present time doing a banking business in the Masonic Temple, on west High street, became the owners of the Francis Ashton block, located at the northwest corner of Market street and the Square. For this property, which has a fifty foot frontage on the square and 127 foot frontage on Market street, Mr. Ashton received \$60,000. At the present time there is a three story block on the lot while the Lima Trust Company refuses to give out any facts concerning the future of the property. It is the general belief that the Lima Trust Company will eventually occupy the property for the corner, formerly occupied by the Ohio National bank, and at present occupied by the Hale Jewelry Company, would make a desirable location for a banking business.

Another improvement soon to be made is the extension of the New-Bond Company's big store to the Square. In order to accomplish this the Keller room now occupied by the candy store of Mr. Carpenter, will be connected with the main room of the New-Bond store, giving that establishment an entrance from the Square.

Another improvement that will add greatly to the business of the square is a three story brick block to be erected by Tony Miller in the southwest corner of the Square. Mr. Miller has here a lot with a frontage of 30 feet on the Square and 140 feet deep. At the present time there is a two story brick on the property. This is at the present time occupied by Williams & Davis' undertaking parlors and the Lima Water Works office. Messrs. Williams & Davis will soon move to the room at present occupied by the Bennett Undertaking establishment. The new structure to be erected by Mr. Miller will in all probability be occupied by a furniture store.

Man and Girl Are Missing

VILLAGE OF GOMER STIRRED BY COINCIDENCE—MORGAN LEFT HIS WIFE.

Thomas Morgan, a wealthy land owner and a leader in Welsh circles about the settlement of Gomer, this county, is mysteriously missing, and alleged to have departed at the same time is a pretty Welsh miss of the thrifty village.

The young lady, whose name has been carefully guarded, came to the village only a few months ago. Morgan came here a few days ago, drew cash funds from the bank and sent word to his wife and family that he was going away to escape the clutches of the law.

JOE REED, OF LIMA, HAS CLOSE CALL AT LEWISTOWN RESERVOIR—GUN ACCIDENTALLY DISCHARGED.

Joe Reed, of Lima, formerly a conductor on the C. H. & D., had a very narrow escape from death at Lakeview yesterday morning. He had just returned from a hunt on the reservoir, stepped out on the landing and attempted to pull his gun from the boat. In some manner the trigger caught, discharging the gun, the full load striking Reed in the abdomen knocking him down. By-standers hastened to his aid and wounded, but investigation disclosed the surprising and pleasing fact that the shot had not penetrated the heavy hunting coat worn by Reed. The severe shock caused deathly sickness and for some hours it was thought Reed had suffered fatal injuries, but at one o'clock this afternoon his physician announced that he was not in danger and had sustained no hurt other than a severe bruising.
